RESULTS:

A visual examination of the victim's clothing (Q-3, Q-4) revealed no hair, patterned marks, or other trace evidence. The garments were scraped down over a large sheet of clean white paper to remove the surface debris. Microscopic examinations of the debris revealed no trace evidence.

The envelope Q-5 contained a single hair which corresponded to the victim's own head hair.

The covers from the victim's bed (Q-6, Q-7, Q-8) were examined for trace evidence. Several hairs were found, but none corresponded to the suspect's hair (K-5, K-6).

A visual examination of the suspect's clothes (Q-9, Q-10, Q-11) revealed several hairs. None corresponded to the characteristics of the victim's hair (K-2). Numerous small torn areas were noted on the front and back of the leather jacket Q-12. Microscopic examinations revealed small thorns in several of these torn areas. Several additional thorns were removed from the "JOX PULSATOR" gym shoes Q-13.

Several hairs were removed from the shoes Q-13 and Q-14. None corresponded to the characteristics of the victim's hair (K-2).

A microscopic examination of the gloves Q-30 revealed several very small splinters of blue painted wood. It was not possible to determine the source of the splinters.

Numerous hairs were removed from the tub drain assembly Q-38, the tub drain pipes Q-40, and the sink drain pipes Q-37. None of these hairs corresponded to the characteristics of the victim's hair (K-2).

Numerous hairs were removed from the ski mask Q-41, the shirt Q-42, the sock Q-44, the sock Q-45, the cover Q-47, and the quilt Q-48. None of these hairs corresponded to the characteristics of the victim's hair (K-2).

Several hairs were removed from the apartment debris Q-54, Q-58, Q-59, and Q-60. None of these hairs corresponded to the characteristics of the victim's hair (K-2).

Several hairs were removed from the car tape lifts Q-64, the trunk sample Q-66, and the bags of debris Q-67 through Q-71, as well as the shirt, Q-75. None of these hairs corresponded to the characteristics of the victim's hair (K-2). No fibers were found which corresponded to those in the victim's clothing.

Two hairs were removed from items in the Dodge Charger (Q-80, Q-82). These hairs did not correspond to the characteristics of hairs from the victim (K-2).

Microscopic examinations of the panties Q-83 from the trash container, the length of barbed wire Q-84, the towel Q-85, and the thorny branch Q-87 revealed no trace evidence.
